Grant Rodeheaver

Director, Office of Information Technology

"We provide the technology tools that help WSDOT deliver"

The Role of Information Technology

The Information Technology Division has an important role in WSDOT. We provide the technology tools that help WSDOT deliver. Our professional staff keeps the *technological lights* on in support of the agency's day-to-day work and provides innovative solutions that enable WSDOT to meet challenging business needs.

Our commitment to the agency —

♦ Provide enabling technologies and cost -effective solutions which supports the way WSDOT works.

♦ Provide a technical infrastructure that is reliable, adaptable and that is driven by WSDOT business needs.

♦ Provide responsible stewardship of the agency's technology resources in support of WSDOT's core principles; Delivery and Accountability.
